Subject: BPA Corona and Field Effects Program

Dear Ms. Winn,

I would like to request a copy of BPA's Corona and Field Effects software, as you provided to TRC Solutions in 2015. Please see their attached request that I downloaded from the BPA website.

Our customers have expressed concerns about EMF that would be produced by a new 230 kV line that we plan to build in Portland, and the program will help us to make sure we remain within Oregon's 9 kV/m limit.

If you need more information from me, please let me know.

Regards,
Kevin
