LTS - 019

Proposed Rebuild of the Libby (FEC) to Troy section of BPA's Libby to Bonners Ferry 115-kilovolt Transmission Line

"I'd like to tell you . . . " All comments pertain to the proposed reroute off River Road at Pipe Creek around the Carpenter, Sturgess + Young property

1. Please have your environmental studies look at:

① Devastating effect on one of the oldest existing Bald Eagle nests in Lincoln Co. + to any future young eagles.

② Any harmful effects to the Bull trout in Pipe Creek. (sedimentation?)

③ Further destabilizing effect on unstable soils above Carpenter property (Slide area) by right of way work.

④ What will be done to control knapweed on disturbed soils by right of way work.

2. I need more information about:

What can be done to control access on right of way roads that effect private property. (Carpenter, Young, Sturgess)

3. I have these other comments:

I would like to see the power line follow to existing route down river road to Bobtail creek + save the Eagles.

Fred Sturgess
124 Bobtail Ln.
Libby, 406-293-9343

Please put me on your project mailing list. (You are already on the mailing list, if you have received mailed notices.)
