FREEDOM OF INFORMATION ACT PROGRAM

September 30, 2019

In reply refer to: FOIA #BPA-2019-01297-F

Jerome Berryhill

(b) (6)

Dear Mr. Berryhill,

Thank you for your interest in the Bonneville Power Administration (BPA). We have received your request for records under the Freedom of Information Act (5 U.S.C. § 552). Your request was received on August 10, 2019, and has been assigned Department of Energy (DOE) control number BPA-2019-01297-F. Please use this number in any correspondence with the agency about your request.

### Request

On August 10, 2019, you acknowledged receipt of the responsive records for FOIA request BPA-2019-00620-F. You indicated, via email:

“I have lived at (b) (6), since 1998. On multiple occasions, persons representing themselves as BPA contractors have come to my house, discussed vegetation trimming they wanted to perform, and then performed the trimming we agreed to. I would assume that BPA would have some records of those events, at least "cut sheets", as well as the inspections that led to them. But I don't see any included in [the responsive record].”

On August 12, 2019, BPA's FOIA Public Liaison replied via email and explained that the FOIA Office would inquire with the agency's appropriate contracting officer, if (1) BPA possessed records such as contractors' cut sheets and inspections, and if (2) those types of records are contractually required to be created and maintained by contractors—with the intent that BPA be able to acquire them. You replied via email:

“As to the second point, there may be a misunderstanding. According to BPA contracts I have examined, BPA creates cut sheets describing in detail the work that is only broadly described in the master contract. Then the cut sheets are given to the contractors, not the

other way around. I believe the contractors may provide some account at billing time of the work performed.”

BPA’s FOIA Public Liaison contacted the vegetation manager and they explained they had collected cut sheets and inspection records, which are part of the records set responsive to your existing FOIA request BPA-2019-00643-F—which has an estimated response date of October 2, 2019.

On August 23, 2019, BPA’s vegetation manager indicated that he found additional inspection reports related to your request BPA-2019-00620-F. Agency personnel did not initially gather those inspection reports because your original request language called for, “all records pertaining to (b) (6).” The newly identified records were not recorded with the aforementioned street address, but rather with the names of the transmission lines on which vegetation management activities were performed.

The FOIA Office considered your August 10, 2019, email a proper FOIA request and, with your approval, amended it as follows:

“I have lived at (b) (6), since 1998. On multiple occasions, persons representing themselves as BPA contractors have come to my house, discussed vegetation trimming they wanted to perform [on transmission lines Eugene-Alvey mile 2, structure 5 and Eugene-Bertelsen mile 2, structure 5] and then performed the trimming we agreed to. I would assume that BPA would have some records of those events, at least "cut sheets", as well as the inspections that led to them.”

### **Acknowledgement**

BPA has reviewed your request and has determined that it fulfills all of the criteria of a proper request under the FOIA and DOE FOIA regulations at Title 10, Code of Federal Regulations, Part 1004.

### **Response**

BPA’s Natural Resource Specialist conducted searches of physical and electronic records at the Alvey District’s Vegetation Management & Forestry Office. The agency located 64 pages of records responsive to your request. BPA is herein releasing all pages, with 28 pages containing redactions applied under 5 U.S.C. § 552(b)(6) (Exemption 6).

### **Exemptions**

The FOIA generally requires the release of all responsive government records upon request. However, the FOIA permits withholding certain limited information that falls under one or more of nine statutory exemptions (5 U.S.C. §§ 552(b)(1-9)).

#### Exemption 6

Exemption 6 protects information in “personnel and medical files and similar files” when the disclosure of such information “would constitute a clearly unwarranted invasion of personal privacy” (5 U.S.C. § 552(b)(6)), and if there is no public interest that outweighs the privacy interest. BPA asserts Exemption 6 to withhold a limited amount of information to protect

personal information such as landowners' names, schedules, property descriptions, and communications with BPA. BPA can find no public interest in this information, as it does not shed light on the mission or working of BPA, as an agency.

**Fees**

There are no fees associated with the response to your request.

**Certification**

Pursuant to 10 C.F.R. § 1004.7(b)(2), I am the individual responsible for the information release described above. Your FOIA request BPA-2019-00619-F is now closed with all available agency records and information provided.

**Appeal**

The adequacy of the search may be appealed within 90 calendar days from your receipt of this letter pursuant to 10 C.F.R. § 1004.8. Appeals should be addressed to:

Director, Office of Hearings and Appeals

(The Office of Hearings and Appeals prefers to receive appeals by email.) The appeal must contain all the elements required by 10 C.F.R. § 1004.8, including a copy of the determination letter. Thereafter, judicial review will be available to you in the Federal District Court either (1) in the district where you reside, (2) where you have your principal place of business, (3) where DOE's records are situated, or (4) in the District of Columbia.
