<p>Notes:</p> <p>P = County priority for control</p> <p>1. All Washington Class A weeds require eradication.</p> <p>2. All Oregon Class A and Class T weeds require eradication or intensive control. Multnomah County uses the Oregon State noxious weed list.</p> <p>Species with bold designations were observed in that county during the 2014 plant survey within the study area, which includes the proposed footprint of ground- and vegetation-disturbing activities (right-of-way clearing, tower sites, roads, pulling and tensioning sites, danger trees), or within a buffer averaging approximately 30 feet wide to assess adjacent habitats (Herrera 2015).</p> <p>Sources:</p> <p>Clark County. 2015c.
