New

NEW Comfort Ready Home training workshop highlights video playlist now available

Take an inside look at Comfort Ready Home's free, in-person workshops with this new set of [videos](#) from a recent training.

If you want to learn about the basics of a blower door test, how a home's systems work together or technical installation of wall insulation; we've got you covered. Our tailored workshops keep utility and contractor teams in the know with hands-on experiences.

If you would like Comfort Ready Home to host a training in your area, contact your [Comfort Ready Home Field Specialist](#).

General

Comfort Ready Home presents tips to help your customers prepare for winter weather

To help your customers prepare for winter, Comfort Ready Home has developed a flyer with information about staying safe and comfortable as temperatures drop. This includes tips to prepare your home for winter weather and lowering your energy bill and safety tips for preparing for an extended power outage. [Download](#) the flyer to share with your customers. If you would like to request a custom-branded version with your logo, contact your [Comfort Ready Home Field Specialist](#) or your EER.

BEETS UPDATE: Drop-In Office Hours will now run Monday, Tuesday and Wednesday from 10:30 a.m. – 12:00 p.m.

We are pleased to announce that after a successful Soft Launch in October, as of Nov. 16, 2022, BEETS is now live for all utility customers! BEETS is now BPA's sole EE Reporting System and IS2.0 is no longer accessible. Some important things to note for customers prior to reporting for the first time...[More](#)
