

Categorical Exclusion Determination

Bonneville Power Administration
Department of Energy

Proposed Action: Takilth Property Acquisition and Stewardship Funding

Project No.: 2011-00-00; BPA-011787

Project Manager: Tori Bohlen – EWU-4; Hannah Dondy-Kaplan – EWM-4

Location: Polk County, Oregon

Categorical Exclusion Applied (from Subpart D, 10 C.F.R. Part 1021): B1.25 Real property transfers for cultural resources protection, habitat preservation, and wildlife management

Description of the Proposed Action: Bonneville Power Administration (BPA) is proposing to fund the Confederated Tribes of the Grand Ronde to purchase the Takilth property, which is a 104-acre parcel of land located about 3 miles southeast from Willamina in Polk County, Oregon. BPA would hold a conservation easement to permanently protect, mitigate, and enhance wildlife and their habitat. BPA would also provide stewardship funds toward land management and maintenance of the property to Confederated Tribes of the Grand Ronde.

This land purchase would specifically satisfy some of BPA's commitments made in the 2010 "Willamette River Basin Memorandum of Agreement Regarding Wildlife Habitat Protection and Enhancement between the State of Oregon and the Bonneville Power Administration".

The property consists of ponderosa pine forest, riparian habitat, and grassland. The Confederated Tribes of the Grand Ronde would develop a land management plan to guide the protection and enhancement of habitat and other resources on the property. The land management plan would be drafted within 18 months of closing. The land management plan would be reviewed by BPA for consistency with the purpose of the acquisition. If BPA proposes to fund any additional activities on the property, further environmental review may be conducted.

Findings: In accordance with Section 1021.410(b) of the Department of Energy's (DOE) National Environmental Policy Act (NEPA) Regulations (57 FR 15144, Apr. 24, 1992, as amended at 61 FR 36221-36243, Jul. 9, 1996; 61 FR 64608, Dec. 6, 1996, 76 FR 63764, Nov. 14, 2011), BPA has determined that the proposed action:

- 1) fits within a class of actions listed in Appendix B of 10 CFR 1021, Subpart D (see attached Environmental Checklist);
- 2) does not present any extraordinary circumstances that may affect the significance of the environmental effects of the proposal; and
- 3) has not been segmented to meet the definition of a categorical exclusion.

Based on these determinations, BPA finds that the proposed action is categorically excluded from further NEPA review.

Attachment(s): Environmental Checklist

Categorical Exclusion Environmental Checklist

This checklist documents environmental considerations for the proposed project and explains why the project would not have the potential to cause significant impacts on environmentally sensitive resources and would meet other integral elements of the applied categorical exclusion.

Proposed Action: Takilth Property Acquisition and Stewardship Funding

Project Site Description

The 104-acre Takilth property located in Polk County, Oregon is currently privately owned and BPA would fund its purchase by the Confederated Tribes of Grand Ronde at closing; oak dominates the wooded and grassland habitats located on the property. Part of the property was formerly used to produce hazelnuts.

Evaluation of Potential Impacts to Environmental Resources

1. Historic and Cultural Resources

Potential for Significance: No

Explanation: There would be no effect due to the land acquisition which includes transfer of title. To the extent that future activities on the property may have an effect, it is expected that the Confederated Tribes of Grand Ronde would comply with all applicable laws and regulations.

2. Geology and Soils

Potential for Significance: No

Explanation: See explanation for #1 above.

3. Plants (including Federal/state special-status species and habitats)

Potential for Significance: No

Explanation: See explanation for #1 above.

4. Wildlife (including Federal/state special-status species and habitats)

Potential for Significance: No

Explanation: See explanation for #1 above.

5. Water Bodies, Floodplains, and Fish (including Federal/state special-status species, ESUs, and habitats)

Potential for Significance: No

Explanation: See explanation for #1 above.

6. Wetlands

Potential for Significance: No

Explanation: See explanation for #1 above.

7. Groundwater and Aquifers

Potential for Significance: No

Explanation: See explanation for #1 above.

8. Land Use and Specially-Designated Areas

Potential for Significance: No

Explanation: See explanation for #1 above.

9. Visual Quality

Potential for Significance: No

Explanation: See explanation for #1 above.

10. Air Quality

Potential for Significance: No

Explanation: See explanation for #1 above.

11. Noise

Potential for Significance: No

Explanation: See explanation for #1 above.

12. Human Health and Safety

Potential for Significance: No

Explanation: See explanation for #1 above.

Evaluation of Other Integral Elements

The proposed project would also meet conditions that are integral elements of the categorical exclusion. The project would not:

Threaten a violation of applicable statutory, regulatory, or permit requirements for environment, safety, and health, or similar requirements of DOE or Executive Orders.

Explanation: N/A

Require siting and construction or major expansion of waste storage, disposal, recovery, or treatment facilities (including incinerators) that are not otherwise categorically excluded.

Explanation: N/A

Disturb hazardous substances, pollutants, contaminants, or CERCLA excluded petroleum and natural gas products that preexist in the environment such that there would be uncontrolled or unpermitted releases.

Explanation: N/A

Involve genetically engineered organisms, synthetic biology, governmentally designated noxious weeds, or invasive species, unless the proposed activity would be contained or confined in a manner designed and operated to prevent unauthorized release into the environment and conducted in accordance with applicable requirements, such as those of the Department of Agriculture, the Environmental Protection Agency, and the National Institutes of Health.

Explanation: N/A

Landowner Notification, Involvement, or Coordination

Description: Notification letters would be sent to adjacent landowners and other interested parties at a minimum of 15 days before the closing date (proposed closing date is no earlier than April 15, 2021) of the sale. Advertisements would also be posted in local newspapers, and information would be posted on BPA's public website prior to closing.

Based on the foregoing, this proposed project does not have the potential to cause significant impacts to any environmentally sensitive resource.
