BPA webinar: Daily demand voltage reduction – pilot program

Bonneville Power Administration (BPA) is launching a daily demand voltage reduction (DVR) pilot program and is seeking participation from interested utilities. Daily DVR is a hybrid demand response program and energy efficiency measure that reduces system voltage delivered from individual utility substations during hours of high demand when energy prices are at a premium. The measure will pay an energy savings incentive based on annual energy savings achieved during specific daily hours in specific months. Utilities may participate as much or as little as they would like during these periods; incentives will be paid based on savings achieved.

Please join us Jan.18 at 10 a.m. PST for a one-hour webinar and Q&A session on the Daily DVR pilot program. In the interim, if you have questions or would like to schedule a meeting to discuss participation, please contact your EER....[More](#)

BPA webinar: Energy Conservation Direct Fund Demonstration Q&A

Bonneville Power Administration (BPA) is offering a funding opportunity that is exploratory in nature and seeks to identify and capture any additional cost effective energy conservation that is occurring within the region. This funding opportunity application period opens Dec.18, 2023 and closes Jan. 31, 2024.

BPA is hosting a one-hour Q&A session regarding the application Jan. 11, 2024, beginning at 10 a.m. PST...[More](#)
