## Additional References

### Videos:

**A Time for Action** (15 minutes) and **Journey of the Kings** (28 minutes) tell the story of the regional effort to keep electric power rates low while protecting the salmon. The videos and related information suitable for schools, church, and civic groups, are available on loan at no charge from the Northwest Power Planning Council. Call 1-800-222-3355 or 222-5161 in Portland, Oregon, or write to:

Northwest Power Planning Council  
851 S.W. Sixth Avenue  
Portland, OR 97204

**Geothermal Energy** (18 minutes) describes how geothermal energy is generated, its availability, and environmental benefits. Available From:

Geothermal Education Office  
664 Hilary Drive  
Tiburon, CA 94920

**Saving the Salmon** (19 minutes) is available from the Bonneville Power Administration Public Information Office 1-503-230-7334, or write to:

Bonneville Power Administration  
Public Information Office (ALP-22)  
PO Box 3621  
Portland, OR 97208

### Written Materials:

**Wana Chinook Tymoo**, an excellent periodical published by the Columbia River Inter-Tribal Fish Commission gives Native Americans' views on salmon recovery and related issues. Write to:

Columbia River Inter-Tribal Fish Commission  
Media Specialist  
729 N.E. Oregon  
Portland, OR 97232

**A Guide to the Indian Tribes of the Pacific Northwest**, by Robert Ruby and John Brown, published by the University of Oklahoma Free Press, 1992. This book and its companion, **Indians of the Pacific Northwest**, are valuable guides to Northwest Indians, historically and contemporaneously.

**Voyage to the Pacific**, BPA Backgrounder, July 1990. This is a 22-page story of a grandfather and his granddaughter making a canoe trip down the Columbia River, beginning at its headwaters. Maps and illustrations are included in the text; individual student copies are available. These materials are available at the following address:

Bonneville Power Administration  
Public Information Office (ALP-22)  
PO Box 3621  
Portland, OR 97208

**Atlas of the Pacific Northwest**, Edited by Kimerling and Jackson, OSU Press, 1985. This publication includes information and maps on precipitation, weather patterns, hydrology, energy use and production for the Northwest. It includes maps on solar, natural gas, geothermal, and wind resource availability in the Northwest.

**The Almanac of Renewable Energy**, Golob and Brus, Published by Holt, 1993. Gives good descriptions of renewable energy resources such as wind, solar, and geothermal.
