- (2) copies of any and all Advanced Payment Agreements that the BPA has executed;
- (3) copies of the currently in-place Service Agreements that involve the Pacific or Southern Intertie (both AC and DC lines) for the purpose of determining the composition (in terms of megawatts of capacity) of the various contracted services that have rights to Intertie capacity, e.g., Ownership rights of BPA, PacifiCorp, Portland General Electric, 3rd AC Participant shares, Open Access Transmission Tariff (OATT) Point-to-Point arrangements, OATT Network arrangements, Formula Power Transmission arrangements, Integration of Resources arrangements, and any other services (please specify the type of arrangement included in this "other" category).
- (4) a summary of the composition of the services (as sought in item #3) using the Pacific Intertie segment, both the AC and DC interties.

I am a consultant seeking information that may be used in defending Snohomish PUD in litigation with the State of Oregon, Department of Revenue.
