Laura:

RE: Lab Report (LR33552)

My name is Rick Evans I am the High Voltage Safety Supervisor for the Washington State Department of Labor and Industries. I would like to make a request under the freedom of information act for Lab Report (LR33552).

This was a line maintenance safety test and the title is, Potential danger of shock to groundman while guiding the lower end of a wood pole being set with a boom truck when the top end accidentally contacts an energized conductor of an 115kv 3 phase transmission line.

If you have any questions please contact Ken Brown (BPA Engineer) at (360) 901-0298 or I can be reached at (360) 902-5562. Thank you for all your help in getting this information.

Thank You,

A handwritten signature in black ink, appearing to read "Rick Evans".
