

Industrial Efficiency Events, January 2012

Be sure to save these dates for two industrial events happening in January 2012, at the Oregon Convention Center in Portland, Oregon. This message was sent to all current and former Energy Smart Industrial *Energy Project Managers* and High Performance Energy Management *Energy Champions*. Utility personnel are welcome to attend both of these events.

Energy Smart Industrial: All Energy Project Manager Meeting

Tuesday, January 17, 2012 (1:00-5:00 PM)

This half-day event is BPA's first annual All Energy Project Manager (EPM) Meeting. It is planned to be a networking session for EPMs to get together and share EPM "best practices," discuss project measurement and verifications, allow for informal discussions and breakouts on issues you've encountered, as well as cover specific technologies.

Below is the very draft agenda¹

- 1:00-1:30 pm Welcome and introductions
 1:30-3:00 pm Other topics may include...
- Project measurement and verification (M&V)
 - BPA ESI program
 - Presentation on a technology to be determined
- 3:00-4:00 pm EPM Best Practices (an EPM-lead discussion)
 4:00-5:00 pm Informal discussions/breakouts
 5:00 pm Adjourn

Please RSVP no later than December 30, 2011

Northwest Industrial Energy Efficiency Summit

Wednesday, January 18, 2012 (8:00 AM to 5:00 PM)

[7:30 AM -- Registration & coffee / 5:00 PM to 7:00 PM – Reception]

This event is hosted by the Northwest Food Processors Association. The focus of the fourth annual Industrial Summit is "industry sharing knowledge with industry." Sessions will feature energy experts and case studies that discuss actions that were taken by the presenting industrial company. To view the most current agenda and/or to register online, please go to the official event website: www.nwfpa.org/energysummit

The targeted audience includes personnel from all industrial sectors: Energy champions, engineers, plant managers and superintendents, operations directors/managers, sustainability directors/managers, basically anyone responsible for a plant's energy use; as well as, energy program providers, utilities, government agencies, industry associations, energy services and products providers, and academia.

Registration: \$100 per person.
