

Brown Bag: PTCS Program Updates

When: Wednesday March 28, 2012

Time: 12:00-1:00pm PST

Discussion Includes

Since we initially announced changes to our PTCS program, BPA has received a great deal of customer feedback. Specifically customers were concerned with the quality assurance inspection rules and the lack of a negative change notice. We have worked to incorporate the customer input we have received and we can now provide updates on the issues of concern as well as clarification on the final program changes being implemented.

On March 28, 2012 BPA will host a Brown Bag Webinar for our utility customers to learn about updates to program rules and measures.

- 10% QA inspection requirement for both utilities and inspectors
- BPA's new Program Requirements document, which replaces the RTF Provider Standard for BPA utility programs
- New resources for the PTCS program
- Measure updates on GSHP and ASHP
- What to expect now that program management has come in house

A separate webinar will be held for contractors, third-party inspectors and third-party trainers.

Presenter:

Stephanie Vasquez, PTCS Program Manager, BPA
