Internal Report now available in the PTR System -

To allow Northwest utilities to fully track their reported conservation, the PTR system now offers an Internal Report which summarizes all reported conservation measures. This report will provide a comprehensive review of activities not reportable to BPA but accepted by the NW Power Council toward conservation targets. It will also include conservation activities reported to BPA excepting those measures funded with bilateral ECA funding. This complete accounting will allow those utilities subject to I-937 or other conservation mandates to fully assess their energy efficiency achievements.

In order to load the report the utility will need to login to the [PTR system](#), select "Orders/Reports", and then select "Internal Report".

This Internal Report is not a BPA specific tool and BPA staff will be unable to access the utility-specific information contained in this report. All questions regarding this tool should be addressed to PTR customer support.

Partner with RC&Ds to Gain Incremental Energy Savings in the Agricultural Sector -

The Bonneville Power Administration has partnered with resource conservation and development councils (RC&D) at the state level to help you reach your energy saving goals in the agricultural sector. Many utilities have already partnered with their local RC&D to reach agricultural producers in their service territory. To view Frequently Asked Questions about the BPA, utility and RC&D partnership, click [here](#).

Save the Date: July NW Regional Public Utility Behavior Based Energy Efficiency Programs Conference Call -

BPA hosts a monthly NW Regional Public Utility [Behavior Based Energy Efficiency Programs](#) Conference Call for customers to learn and share ideas about behavior based energy efficiency programs. **The next call is July 21st, from 2:00-3:00 pm.**, Phone (877) 336-1839, access code 2305557... [add to calendar](#)

Lars Henrikson, Energy Planning Analyst at Seattle City Light, will discuss SCL's Home Energy Reports program from soup to nuts.

All public utility customers are invited to participate in these calls. The purpose is to create behavior based energy efficiency (BBEE) program awareness, share lessons learned, promote use of best practices, and encourage BBEE activity. A summary of the meetings can be found [here](#).
