Energy Smart Awareness Brown Bag Interim Solution (IS2) Update -

Wednesday, August 15, 2012, 12:00 – 1:00pm

BPA is committed to working with public power to create a reporting system to record regional energy efficiency acquisition by measure, kWh savings and costs. This Brown Bag will provide a demonstration of progress to date and a preview of the next steps BPA intends to take to deliver a regional reporting system. This Brown Bag will also feature a discussion of an important companion piece to the system Interim Reporting System, an Excel file naming convention tool... [More](#)

Program Updates

Heat Pump Water Heater Quality Assurance -

NEEA has offered to provide quality assurance inspections, at no cost, to utilities who provide project information. To help our customer utilities who want to take advantage of this offer, BPA will collect and compile data from forms submitted to BPA, and provide monthly batches to NEEA. Utilities that would like to participate in this data transfer and quality assurance program may opt in by contacting [Stephanie Vasquez](#)
