Energy Smart Awareness Brown Bag

Interim Solution 2.0 Tools Overview - September 27, 2012, 12:00 – 2:00pm

BPA is committed to working with public power to create a reporting system to record regional energy efficiency acquisition by measure, kWh savings and costs. In order to ensure our customers have the information they need to use the tools that will interact with our reporting system BPA will be hosting a Brown Bag that will provide an overview / demonstration of the Deemed Measure Upload Template, Deemed Reference Measure List and new and soon to be released Option 1 Custom Project Calculator... Program Updates

Retail Promotion Coming Soon... Tier 1 Heat Pump Water Heaters at Sears!

Smart Water Heat is partnering with Sears on a Tier 1 heat pump water heater promotion from Sept. 27 - Oct. 28, 2012.

Both Sears and Smart Water Heat are contributing to an instant markdown totaling 50% off the regular price at time of purchase and 0% financing for 24 months. This promotion is in addition to utility, state and federal incentives, and will be available at 37 full-line Sears stores across the Northwest. For more information and to see a full list of participating stores, go to SmartWaterHeat.org/Sears.

Reminders

Complimentary passes to the upcoming E Source Forum -

For the past several years BPA has sponsored E Source memberships for the public utilities of the Northwest. With this membership you have access to a variety of resources from E Source, including their Efficiency and Demand Response Programs Service and Technology Assessment Service. Additionally BPA's utility customers have access to a limited number of complimentary passes to E Source events including the upcoming E Source Forum which is being held on October 2-5 in Denver, Colorado... E Source Resources

Mobile Home Weatherization: A Missed Opportunity?

In [Mobile Home Weatherization: A Missed Opportunity?](#), E Source looks at what weatherization measures typically present the best opportunities for this unique market, how the existing federal low-income weatherization program doesn't catch all of the mobile home market, and how one utility is going after this market by working alongside the federal program. [The web conference recording is at the bottom of this page.](#) You will need to sign in to view this page.

Many E Source resources are free to BPA customers. By logging in to E Source you have access to more webinars, research reports, a national DSM program database, and personalized answers to your and other utility's most important questions. Questions about [logging in](#)?
