

- **Week of September 29, 2011**

**Behavior Based Energy Efficiency Programs Conference Call -
Save September 29th to learn about Western Massachusetts Energy
Company's Behavior Change Program.**

WMECO has teamed with Efficiency 2.0 and their partner RecycleBank, a company that specializes in providing "rewards" in the form of redeemable points for efficiency and recycling programs to create "Western Mass Saves", a program that is designed to aid residential customers in conserving energy through various conservation measures and behavioral changes ... EE Central Training Modules –

EE Central will be having training modules the week of September 26th and the week of October 3rd (the same trainings will be offered in two separate series, you may attend any combination of trainings or all trainings). The trainings will be provided via WebEx ... [More](#)

Energy Smart Awareness Brown Bag

Save October 12th for Inputs to the Utility Potential Calculator—

To provide utilities with individual inputs for the Utility Potential Calculator, BPA is increasing the number of survey phone calls associated with the Residential Building Stock Assessment. Join us to review the draft maps of the survey territories and to provide feedback on whether the identified territories are an accurate representation of public power territories ... [More](#)

New Behavior Based Energy Efficiency Funding Opportunity for Utilities -

BPA is seeking applications from BPA customer utilities for innovative behavior based energy efficiency (BBEE) pilot programs. BPA's goal is to enable, validate and

increase the amount and persistence of energy savings achieved through BBEE programs in the Northwest. Applications are due November 7, 2011... [More](#)

Measure Expiration Dates in the PTR Extended for Reporting Only -

Expiration dates on some measures have been extended in the Planning, Tracking and Recording (PTR) system solely to allow for year end close-out reporting.

Measure expiration dates currently listed in the PTR System refer only to the changeover from the PTR System to EE Central, unless otherwise communicated in the change notification section of the Energy Efficiency Implementation Manual. Because the PTR programmatically verifies measure eligibility, measure expiration dates have been extended to 11/30/11 in the PTR to ensure measures are available for utilities to generate Conservation Rate Credit (CRC) close-out reports for FY 2011.

Please refer to the Implementation Manual for all measure expiration dates

For questions, contact your Energy Efficiency Representative.
