

The meeting of SubGroup A for Monday August 21st starting at 2:00 P.M. will be in the Columbia Room at the PDX Conference Center, Portland Airport. The meeting on Tuesday starting at 9:00 A.M. will be in the same conference center in the Clackamas Room. A list of the work items we need to cover is as follows:

1. Final RRG Report Language and Overheads
2. Drafting of any additional issues for property damage release.
3. Work assignments for drafting the multilateral agreement for liability.
4. Decisions on the Load Integration Agreement Liability provisions.
5. Decisions on the DSI's position, if available.
6. Drafting of liability language for the Scheduling Coordinator Agreement.
7. Drafting of parallel Section 20 of the TCA for LIA and GIA.
8. Review of a liability matrix.
9. Check with regard to status of Seams re liability issues.

Since it is likely that we will have people interested in these issues drop in and out during the time we have before Wednesday, I am not proposing an order to these items, and we will try to accommodate those who have to leave for other meetings by taking their items while they are present.
