

Summary of Recent Meetings, Conference Calls and the RRG Mtg.

Summary of July 14, 2000 Meeting

This meeting held the PDX center was focused on presenting to the RRG the work groups recommendations. A set of flip charts (which have been previously distributed to the work group) were developed as a starting point for the presentation.

First Draft of RRG Distributed On 7/24

The first power point draft presentation was distributed to the work group on 7/24 in anticipation of reviewing it at the 7/27 meeting held at the PDX Center.

Meeting At The PDX Center on 7/27

A meeting with dial in capability was held on 7/27 to review/revise the draft power point presentation to the RRG scheduled for 8/2.

Revised Draft

A revised draft was distributed to the work group on 7/27 for review and comment. All comments were considered and changes reflected.

Distribution of the Final Presentation

The final RRG presentation was distributed on 8/2.

RRG meeting on 8/2

Barney Speckman presented the package developed by the work group to the RRG on the afternoon of 8/2. The package was well received and generated many clarifying questions. The RRG's focus was to begin processes now recognizing that most of the Seams issues would require considerable effort to resolve and would be worked on beyond the 10/15 filing date.

A meeting of a subset of the work group is being with representatives of Calif for the afternoon of the 14th as a follow up to the recommendation to begin a dialog with the RTO west neighbors.

The RRG also asked that we look at dealing with internal seams issues in the near term.

In keeping with the RRG's approach to reviewing recommendations they will review the recommendations and seek consensus at the next meeting.
