

*******NEW LOCATION*******

Hello, Everyone -

As sent out last Friday, this confirms again the next meeting of the RTO West Regional Representatives Group (RRG) for Friday, November 9, at the Kingstad Meeting Center, Room F. The meeting will start at 8:30 a.m. and by 12:30 p.m. The Kingstad Meeting Center is in the same building as the RTO West administrative office. We will meet in the same room we used for the PJM-LMP Congestion Management briefing with Seabron Adamson and Andrew Ott on October 23. Coffee, pastries, and juice will be served.

The address of the Kingstad Center is 5933 NE Win Sivers Drive, and as most of you know, it is located about three miles directly east of the Portland airport. Go about three miles east on Airport Way and take a right on Win Sivers Drive and right again at the second driveway. Parking will be available in Kingstad marked spaces as well as overflow parking in the Leatherman's lot across the street. If you have any questions about the logistics for the meeting, please call Judy Welch at (503) 262-9421.

The working agenda for the meeting is:

1. Description and Discussion of new Congestion Management framework and process

Attached is an "Overview of Filing Utilities' 'Convergence' Congestion Management Model" for your review before the meeting.

2. Discussion of Process for Completion of RTO West Stage 2 filing

3. Feedback from RRG on Draft Report to FERC on Seams Resolution and Canadian Participation.

A draft of this report was sent to the RRG last Wednesday, October 31, with the request that written comments be sent to Chris Elliott by 3:00 p.m. on November 21. The Report is due to FERC by December 1, 2001. Please feel free to offer any comments you'd like to make on the draft report this Friday.

4. Brief Reports and Feedback from RRG on FERC's RTO Week, and the November 1 CREPC and November 2 FERC Infrastructure Meetings

Several RRG members attended these meetings in D.C. two weeks ago and in Seattle last Thursday and Friday. We thought it would be helpful to get brief reports on these meetings and then discuss any questions that RRG members might have. We're pleased that Mike Coleman from FERC is planning to attend the RRG meeting.

5. TransConnect Report

6. Benefit Cost Update

7. Market Monitoring Update

8. Other

This is a full agenda, but if you have any suggested additions, please let me know.

We look forward to seeing you this Friday.

- Bud
