

UNITED STATES OF AMERICA  
FEDERAL ENERGY REGULATORY COMMISSION

Electricity Market Design and Structure

Docket No. RM01-12-000

NOTICE OF WORKSHOP ORGANIZATION AND AGENDA

As announced in the Notice of Workshops issued on September 28, 2001, a series of commissioner-led workshops is scheduled for October 15 through October 19, 2001. The workshops will begin at 10:00 a.m., in the Commission meeting room at the Federal Energy Regulatory Commission, 888 First Street, N.E., Washington, D.C. The purpose of the workshops is to discuss core issues related to the development of efficient electric markets in an era in which electric transmission systems will be operated by Regional Transmission Organizations.

The workshops are open for the public to attend. An agenda with workshop speakers is appended as Attachment A.

Although the Commission will specifically solicit public input in the rulemaking process that is likely to result from the workshops, those who wish to comment now may file written comments in this docket at any time before or within 15 days after the workshops are completed.

During the course of the workshops, it is possible that discussions may overlap with issues pending in the cases listed in Attachment B. The Commission will make every effort to prevent this from occurring. A transcript of the discussion will be placed in each of the listed dockets, if appropriate.
