

RTO West Stage 2 Development Process

Planning Content Group Backstop/Transmission Adequacy Standards Small Work Group February 20, 2001 Meeting

Agenda

- 1:00 – 2:30* Discuss Concept of Transmission Adequacy Standards
Possible Components
Are there Existing Standards to Draw From?
How to Evaluate Non-transmission Components
Use of Standards (once they are designed, will the RTO need to further distinguish between congestion clearing and load service projects for purposes of the backstop?)
- 2:30 – 3:15* Examples of Distinguishing Between Load Service and Congestion Clearing Projects
- 3:15 – 3:45* Discuss Backstop
Definition
Temporal Scope
Process
- 3:45 – 4:00* Next Steps
