Proposed Rebuild of the Libby (FEC) to Troy section of BPA's Libby to Bonners Ferry 115-kilovolt Transmission Line
"I'd like to tell you . . ."

LTS-004
MAY 11 2005

1. Please have your environmental studies look at:

2. I need more information about:

3. I have these other comments:

Go Underground! Many pluses
No towers, No constant tree and brush trimming/repair.
No unsightly nes, No Ice breakage or tree-falling breakage
or wind down problems, less vulnerable to terrorism/vandalism
Less liability without risk of falling lines on people & property.
Earthquakes: how often would this happen! never maybe. Also have earthquake risk (even
more so) with above ground.

Please put me on your project mailing list. (You are already on the mailing list, if you have received mailed notices.)
