

Proposed Rebuild of the Libby (FEC) to Troy section of BPA's Libby to Bonners Ferry 115-kilovolt Transmission Line
"I'd like to tell you . . ."

1. Please have your environmental studies look at:

unsightly steel towers that don't blend in
with the natural terrain

2. I need more information about:

3. I have these other comments:

This is a small but beautiful valley largely unspoiled by development that is enjoyed by townspeople, visitors, hikers, boaters, horseback riders & bicyclists. It would be a shame to plant enormous unsightly steel towers & multitudinous numbers of transmission lines through it. Please take the lines around the back side of the hill using your alternate route.

Please put me on your project mailing list. (You are already on the mailing list, if you have received mailed notices.)
