

**Proposed Rebuild of the Libby (FEC) to Troy section of BPA's Libby to Bonners Ferry 115-kilovolt Transmission Line
"I'd like to tell you ..."**

1. Please have your environmental studies look at:

People who wear defibrillator or Pacemaker's. The closest
A person can build and live to the proposed 115 line
and the 230 line.

2. I need more information about:

where the line poles will be placed
on the 115 and 230 lines

3. I have these other comments:

if they take any more of my
property it will make it totally worthless. And
by the way things are going this is the plan
90% of the people involved in this area are retired
people that paid for their land and houses and what
they saved all their life for. (The proposed route
would be the way to go.)

Please put me on your project mailing list. (You are already on the mailing list, if you have received mailed notices.)
