Subject: Tribal Monitoring Guidelines comments (DKT-7)

Thank you for sending the BPA's proposed Tribal Monitoring Guidelines for comment. We would like to suggest that the phrasing of section I. *NHPA consultation process*, part 4, be changed from "If BPA determines that monitoring work is needed . . ." to "If as a result of the consultation process it is determined that monitoring work is needed. . ." We think that this wording better highlights the cooperation and consensus building that is so central to the NHPA Section 106 process.

We look forward to receiving the next draft of your policy.

Thank you,

Sarah E. Johnson
