**2010 BPA Rate Case  
Transmission & Ancillary Services  
-Comments on BPA Transmission Services'  
Draft Partial Settlement Agreement -**

**The following are comments submitted by  
Snohomish PUD on December 18, 2008.**

Pre-decisional.  
For Discussion Purposes Only.

Snohomish County PUD No. 1 would like to offer the following rewrite of paragraph three of the TR-10 draft partial settlement agreement.

3. During 2009, BPA will hold discussions with all interested parties regarding segmentation, cost of service, and rate design for future transmission rates. Such discussions will include, but not be limited to, the appropriate rate design for the Utility Delivery segment and costs of transmission facilities that comprise the former Northern Intertie transmission segment and that could comprise the Northern Intertie transmission segment, if such a segment were reestablished. BPA will address other topics as may be raised by the parties that are relevant to the design of transmission rates. The deliverable for these joint discussions shall be a written transmission rate design methodology that will serve as a template for the next rate case.
