Gentlemen:

Attached is approved copy of map of definite location covering electric power transmission line and road right of way affecting public domain allotment No. Spokane 018811, also copy of schedule of damages for your records.

Please accept our apologies in the delay in this transaction.

In our letter dated September 1, 1964, granting permission to commence construction we requested you furnish this office an affidavit of completion report as prescribed by CFR 161.17. It will be appreciated if you would furnish this report upon completion of construction.

Sincerely yours,

ASSISTANT ROBERT B. DUNN
Superintendent

AFFIDAVIT OF APPLICANT'S ENGINEER AND CERTIFICATE OF APPLICANT ON MAPS AND PLANS

STATE OF OREGON, COUNTY OF MULTNOMAH, ss.

Kirk E. Williams, being duly sworn, says he is by occupation a CIVIL ENGINEER, employed by the Bonneville Power Administration, and that the map (plan) was prepared under his supervision from actual surveys and designs, correctly represents so far as shown hereon, the location and design of the works described in the accompanying application, to the best of his knowledge and belief correctly represents all other matters shown hereon, and represents a safe, adequate, and feasible plan for the fullest economic utilization of the power resources involved. The right of way requested begins at station 1539+843 and ends at station 1564+90.7 and is 0.47 mile in length.

Kirk E. Williams, Engineer

Subscribed and sworn to before me this 13th day of May, 1964

(SEAL) Helen C. Cannon, Notary Public for Oregon

My commission expires Dec. 18, 1965

This is to certify that Kirk E. Williams, who subscribed the affidavit hereon is the person employed by the undersigned applicant to prepare the map (plan), which map (plan) has been adopted by the applicant as the approximate final location of the works thereby shown; and that this map (plan) is filed as a part of the complete application.

BONNEVILLE POWER ADMINISTRATION

From: Principal Title Officer, Branch of Land

Subject: Tract Nos. V-47-39 and V-47-AR-20-2

In accordance with our letter of application to you and the voucher certificate executed by your office on July 9, 1964, we are enclosing United States Treasurer's check No. 51,594,289, drawn to the order of Bureau of Indian Affairs c/o Superintendent Yakima Indian Agency, in the amount of $402.50, covering payment of damages over the above-referenced allotment for our Vantage-Moxee Valley transmission line. Of this amount, $2.50 is in payment of the fee for modification of Grazing Lease No. 2142 held by Mr. Kirk German.

The contract for construction of this line is to be awarded in a few days. Therefore, we will appreciate your cooperation in issuing permission for entry for construction purposes as soon as possible.

Please let us know when the title to this land has been resolved in order that we may proceed with the necessary work to close this transaction.

Memorandum

To: The Superintendent
Yakima Indian Agency
Toppenish, Washington

From: Principal Title Officer, Branch of Land

Subject: Tract Nos. Y-IV-39 and Y-IV-AR-28-2

Upon receipt of your letter of June 16, 1964, we discussed with Mr. Victor Lindsay of the Bureau of Indian Affairs the feasibility of removing the transmission line right of way from Mr. German's lease. After considerable thought on the matter it was concluded that the same objective could be accomplished by Mr. German signing a subordination agreement. Accordingly, Form No. 5-180 a was revised and Mr. German was contacted by our field representative. Mr. German approved the subordination of his lease to the proposed Bonneville Power Administration easement and the original and one copy of the signed form are enclosed herewith for your records.

Under the circumstances, will the $2.50 modification fee mentioned in the last paragraph of your letter of June 16, 1964 be applicable?

If our application is now in order, we will appreciate receiving the signed voucher certificate in order that we may draw the check for $400.00 as deposit for the easement rights desired.

In Reply refer to:
V-MV-39
V-MV-AR-28-2

The Superintendent
Yakima Indian Agency
Toppenish, Washington

Dear Sir:

The Bonneville Power Administration has surveyed for a transmission line right of way across the NE¼SE¼, NW¼SE¼, and NE¼SW¼ of Section 6, Township 10 North, Range 20 East of the Willamette Meridian.

Preliminary title information indicates this property was patented to Billy Peters on May 23, 1950, trust patent No. 1129157, and that title is now in dispute under the jurisdiction of Mr. R. J. Montgomery, Bureau of Indian Affairs Hearing Examiner, Portland, Oregon.

Pending settlement of this dispute and negotiations by Bonneville Power Administration with the rightful owner, application is hereby made for a temporary right of entry for construction purposes.

By authority of the Bonneville Act (50 Stat. 731 as amended), the Bonneville Power Administrator proposes to construct, operate, and maintain two electric power transmission lines over and across the Indian land shown on Bonneville Power Administration drawing serial number 116028 DTM-D. Four copies thereof and one mylar original with the engineer's affidavit are attached hereto. The easement area is outlined in red and the access road is colored brown.

The Vantage-Covington line and a future line to be constructed on this right of way will be operated at a voltage in excess of 115 Kv which will necessitate a right of way width of 275 feet, and therefore the Bonneville Administration agrees to the conditions of 25CFR161.27(d).

A staff appraisal has been made of the easement rights and this appraisal has been referred to the Chief, Branch of Real Estate Appraisal, Bureau of Indian Affairs. Attached is a copy of Mr. Swanson's reply of April 29, 1961.

Also enclosed is our standard voucher certificate in the Amount of $1,00.00. If this transaction meets with your approval, we will appreciate your signing and returning this voucher certificate to this office in order that we may prepare a check for forwarding to your office as a deposit for the easement rights desired.

Construction of this project is scheduled to commence in August, 1964. We will appreciate whatever attention can be given this application to enable us to have the right of way available for entry by our contractor at that time.

We will appreciate notification from your office when title to this land has been cleared, or any other suggestions your office may have as to procedures for acquiring the necessary rights.

Sincerely yours,

E. E. Grant
Principal Title Officer

DEC 1 1953

Memorandum

To: Manager, Land Office
Bureau of Land Management
Box Marine Building, Spokane, Washington

From: Branch of Land
Bonneville Power Administration

Subject: Vantage-Maple Valley No. 1 transmission line

In accordance with instructions set forth in Mr. Doyle's letter, dated April 19, 1951, this application for reservation of our right of way across public domain land is being submitted to you for processing.

By virtue of the authority granted to him in the Bonneville Act (50 Stat. 731, as amended), the Bonneville Power Administrator proposes to construct, operate and maintain one or more electric power transmission lines over and across those certain vacant and unappropriated lands of the United States referred to in the attached schedule and outlined in red on the attached right-of-way maps. These maps include the mylar tracing and five prints thereof.

Also attached are two copies of the survey or centerline description as they affect these tracts of land.

The scope of the easement rights required for this right of way is as follows:

A perpetual easement and right to enter upon, erect, operate, maintain, repair, rebuild and patrol one or more electric power transmission lines and appurtenant signal lines, poles, towers, wires, cables and appliances necessary in connection therewith, together with the right to clear said tracts of land and keep the same clear of all brush, timber, structures and fire hazards; provided, however, that trees outside the right of way which are not tall enough to endanger the lines shall not be interpreted to include trees or crops.

In addition, the Bonneville Power Administration further proposes to construct, use, maintain or improve access roads over those certain tracts of vacant and unappropriated United States lands referred to in the attached schedule and as shown on the right-of-way maps which show locations and courses for all roads required, whether existing or to be constructed. The scope of the easement rights required for these access roads is as follows:

The right to enter and keep clear of timber, endangering trees and brush, to grade, level, cut, fill, drain, build, maintain, repair, rebuild and use a road or highway and such culverts, bridges, turnouts, retaining walls or other appurtenant structures as may be necessary on, over and across the land embraced within the right of way.

Provided no previous withdrawal or entry has been made, it is requested that a notation of this right of way and across roads, on these tracts of land are carried, be made upon the records of your office and that in any subsequent disposal of these lands there be reserved to the United States the easement rights set forth above in accordance with the Department of Interior instructions of January 19, 1916 (44 L.D. 513).

When these notations have been made, please advise so that these cases may be closed.

Thank you for your cooperation.

CERTIFICATE OF INSPECTION AND POSSESSION

Tract No.
V-MV-AR-28-2

I, the undersigned, state and certify:

1. That on the day of , 19 , I made diligent inquiry of the and conducted a personal examination of that certain tract of land situated in the County of Kittitas , State of Washington designated as Tract No. as above , Bonneville Power Administration, containing acres, over which an easement is being acquired by the United States of America for the use of the Bonneville Power Administration.

2. That I found no evidence of any labor having been performed or of any material having been furnished, placed, or used thereon, within the past six months in connection with the making of any repairs or improvements, except as follows: Survey stakes of the Bonneville Power Administration's Vantage-Maple Valley No. 1 transmission line.

3. That the following are the only persons, firms, or corporations found to be in possession of said premises or any part thereof: Bonneville Power Administration in possession of a transmission line easement.

4. That Bureau of Land Management
680 Bon Marche Bldg.
N 214 Wall Street
whose address is Spokane 1, Washington

reputed to be the owner of said land:

5. I further certify that, to the best of my knowledge and belief, based upon actual and diligent inquiry made, and from a physical inspection of the premises, except as disclosed and evidenced by the public records, there are no vested or accrued water rights for mining, agricultural, manufacturing or other purposes; that there are no ditches or canals constructed by or being used under authority of the United States; that there is no development nor are there any operations for the development of coal, oil, gas, or other minerals on said land; that there are no possessory rights now in existence owned or being actively exercised by any third party under any reservation contained in the patent or patents heretofore issued by the United States of America for the land.

6. I further certify and state that, to the best of my knowledge and belief, there is outstanding no right whatsoever in anyone to the possession of a right, title, lien, or estate in or to said premises, except such as are disclosed and evidenced by the public records or by this certificate.

Dated at
this day of , 19 .

2. NAME OF OWNER U.S.A. (BLM) Billy Peters

3. DESCRIPTION OF OWNERSHIP in Sec. 6, Twp. 18N, Rg. 20E, Co. Kittitas
N½SE¼; NE¼SW¼ South Southerly sloping range land with sage brush, short grass & bunch grass. No timber, buildings or improvements except roads & fences

4. INTEREST IN REAL ESTATE TO BE ACQUIRED.

A perpetual easement and right-of-way, 275 ft. wide, approx. 2480 ft. long, and containing approx. 15.4 acres, for the construction, operation, maintenance, and patrol of one or more transmission lines with necessary appurtenances thereto, according to the terms and conditions recited in option form _____ subject to reservations as follows:

5. RELATION OF RIGHT-OF-WAY TO OWNERSHIP.

275' R/w crosses the N½SE¼ & the NE¼SW¼ in a NWly & SEly direction cliping the SWly Corner of the NE¼SE¼, crosses the NW¼SE¼ & clips the NE¼SW¼. (NWly corner of) There are no improvements except roads & fences

6. THE ESTIMATED VALUE OF FACTORS CONSIDERED.

Item	Easement Value
Land 2480 lin. ft., 1.54 acres of Range land	$385.00
Land _____ lin. ft., _____ acres of _____	
Land _____ lin. ft., _____ acres of _____	
Timber on right-of-way	None
Danger Trees _____ feet out (approx.)	None
Buildings on R/W Occupied? _____ Salvage value - $ _____ Recovery value - $ _____ *** Present full value	None
Other Access Roads AR-28-2; Length 1-A-27-1 Sht-2 existing dirt roads (Described on reverse side)	$15.00
TOTAL	$400.00

7. I hereby certify that I have personally examined the above-described property and have considered the effect thereon of the right-of-way to be acquired under this appraisal. By virtue of my knowledge of the present market value of the real estate involved and with full consideration of its highest, best, and most prudent use at the present time, it is my opinion that the fair and just value of this right-of-way easement is a sum not less than $_____ nor in excess of $_____, exclusive of mineral rights and subject to existing roads and utilities.
