RE: FOIA Request #04-037, KDP-7

Dear Mr. Wright:

I am inquiring on the status of my FOIA Request #04-037 for access to public records regarding acquisition and project proposals for the Albeni Falls Wildlife Mitigation Program.

The Bonneville Power Administration's office received my request on April 27, and Mr. Lee Watts, Fish and Wildlife Project Manager, was given 20 working days, until May 25, 2004, to provide a response. I talked to Mr. Watts on May 11, 2004, explaining the documents I wanted, and as of June 8, 2004, I have not received a response.

If you believe any of these documents is exempted from public disclosure, please inform me in writing of which document or record you are withholding and cite the specific exemption(s) that allows the withholding of the information, and inform me of appeals procedures available under the law. Please release any documents not in question in the meantime.

If it is not practical to provide copies of all these records, please let me know when they can be made available for inspection and copying.

Please respond promptly. I would appreciate it if you would forward this to the proper staff member(s) within your agency.

Best regards,

William Love, Reporter, The Newport and Gem State Miner Newspapers
