Replace: the customer's FY 2010 aHLH energy amounts for the corresponding months that are used to calculate the customer's CHWM. Once calculated, the CDQs will be included in the CHWM Contract and will not be changed during the CHWM Contract term except for annexations. The following formula will be used for each month of FY 2010 to calculate the CDQs:

With: the customer's average adjusted Measured FY 2010 Load for monthly HLH less the HLH Existing Resources for CHWM amounts for the corresponding months for Fiscal Year 2012 as set forth in Exhibit A of the customer's CHWM Contract on September 30, 2009. Once calculated, the CDQs will be included in the CHWM Contract and will not be changed during the CHWM Contract term except for annexations. The following formula will be used for each month of FY 2010 to calculate the CDQs:
