

FIRST PURCHASE PERIOD RESOURCE SUPPORT SERVICES ELECTION SUMMARY

The following is an overview of the Resource Support Service (RSS) products customers elected to purchase from BPA to support new specified resources that will be used for the first Purchase Period (FY 2012-14). Total Average Megawatts of non-Federal resources BPA will be providing RSS for under each product are approximate.

Diurnal Flattening Service (DFS) and Forced Outage Reserve Service (FORS)

BPA will be providing DFS and/or FORS for four non-Federal resources, including one wind project, two landfill gas projects, and one biomass project.

- BPA is providing DFS for one non-Federal resource (just under 1 aMW)
- BPA is providing DFS and FORS for three non-Federal resources (about 5.5 aMW)

Secondary Crediting Service (SCS)

Option 1

- BPA is providing SCS under Option 1 for four existing non-Federal hydro resources (about 10 aMW)

Option 2

- BPA is providing SCS under Option 2 for three non-Federal hydro resources (just over 2 aMW)
