

BPA Energy Efficiency Weekly Announcements

January 30, 2025

New

Comfort Ready Home: Home as a System Webinar

Please join BPA's Comfort Ready Home program Feb. 13 from 10 – 11 a.m., (PST), to learn how home systems work together to maximize the impact of residential energy efficiency programs. Field Specialist Aaron Lazelle will present on the fundamentals of building science principles and ways to identify energy upgrade opportunities...[More](#)

General

BPA to Launch Online Lighting Calculator

BPA will begin to replace the spreadsheet-based Nonresidential Lighting Calculator (LC6.0) with the cloud-based Online Lighting Calculator (OLC) in March 2025, which will enhance user experience, reliability, and cybersecurity. Utilities will transition to the new OLC in cohorts and receive training and support materials in virtual sessions. All projects must migrate before the LC6.0 retires in September 2025...[More](#)

BPA Momentum Savings and Market Research Quarterly Call Cancelled

The BPA Momentum Savings and Market Research Quarterly call on Feb. 5 is cancelled. The next quarterly call is on May 7. For more information or to add the call series to your calendar, visit [Calls - Bonneville Power Administration](#).
