Comfort Ready Home: Training spotlight

Connect with Comfort Ready Home to see how the program can bring valuable training to your residential contractor network. In February, Comfort Ready Home partnered with Clallam County PUD, City of Port Angeles, and Jefferson PUD to help contractors better understand the benefits and installation best practices for heat pump water heaters. Read more about this hands-on training and find out what other offerings Comfort Ready Home has available [here](#).

Low-Income Utility Process Evaluation Report and BPA program response now available

BPA recently completed an evaluation of the low-income program, focused on public utility energy efficiency incentives (EEI). This independent evaluation identified opportunities for improvement, assessed regional low-income program activity as well as utility and Community Action Agency experiences with BPA's programs...[More](#)
