

BPA Energy Efficiency Weekly Announcements

December 5, 2024

New

BPA Voluntary Data Request

BPA is seeking voluntary assistance from utility customers to provide project costs for energy efficiency projects across the region. Providing this information will allow BPA access to more real-time, detailed, and regionally accurate insight into project costs that will improve our understanding of the market....[More](#)

Do It Yourself Winterization Tips

Share winterization tips with your customers before the next cold snap. Ice, snow, and freezing weather can be tough on homes. Fortunately, there are easy and inexpensive ways your customers and members can stay safe and warm this winter. BPA's Comfort Ready Home program has created a blog post and flyer with these [winterization tips](#).

Events

BPA Nonresidential Lighting Impact Evaluation Webinar

Please join us Dec. 5, from 10 - 11 a.m., PST, when we will present our findings on the BPA nonresidential lighting program impact evaluation. This report reviews nonresidential lighting energy savings and provides recommendations to help maximize energy savings and improve cost-effectiveness...[More](#)
