

BPA Energy Efficiency Weekly Announcements December 18, 2025

New

BPA Cost Documentation and Other Requirements Begin April 2026

Beginning April 1, customer utilities will be required to upload cost documentation when requesting Energy Efficiency Incentive (EEI) reimbursement. BPA informed customers of these upcoming requirement changes during a [webinar](#) held on Sept. 25, 2025. Additional information will be shared in early 2026 with details on what is required, how, and when to submit to BPA.

If you have questions, energy efficiency representatives (EERs) are available to answer.
