BPA Webinar: High-Performance High-Capacity Heat Pump Field Study

Join BPA's Emerging Technologies team for a webinar about the [High-Performance High-Capacity Heat Pump \(HPHC HP\) Field Study](#) on July 16 from 10-11 a.m. This multi-year field study of 57 residential sites across the Northwest demonstrates that modern HPHC HPs can deliver significant energy savings over standard electric resistance heating. The team will share the study's findings, methodology, and key utility program recommendations in more detail. The report is available on Emerging Technologies webpage, along with an accompanying [two-page summary...More](#)

Agricultural Utility Group Meeting

Join BPA's Agricultural (Ag) team for the Ag Utility Group (AUG) Meeting on Wednesday, July 22 from 9:30-10:30 a.m. (PDT). Topics will include the Ag energy audit measures, the improved pump efficiency project information form (PIF), energy conservation opportunities for dairy farms, BPA marketing support, and a brief look at the finished Variable Frequency Drive (VFD) for Ag Pumps Energy Savings Calculator that will launch soon...[More](#)

BPA Webinar: October 2026 Implementation Manual Changes

Please join BPA Thursday, July 23 from 10 - noon (PDT) for a presentation on the 2026-2027 Rate Period Implementation Manual, effective Oct. 1, 2026. There will be time available for participants to ask questions...[More](#)
