

# Residential Behavioral Home Energy Reports Qualified Programs List

Last Updated: January 13, 2022

## Approved Qualified Programs\*:

Programs	BPA Behavioral Home Energy Report Specification:
Utility Consumer Analytics, Inc (A division of Harris Utilities)	<p>The identified program vendors meet minimum requirements to deliver a Behavioral Home Energy Report on behalf of a BPA utility.</p> <p>To meet the standards of the Qualified Programs List, programs must demonstrate that they provide:</p> <ul style="list-style-type: none"> <li>• Seasonal household energy-consumption information.</li> <li>• A normative comparison of household energy consumption to similar households.</li> <li>• Tips and strategies to reduce household energy consumption.</li> </ul>
Bidgely	
Franklin Energy	
Opower	
Uplight	

Behavioral Home Energy Reports must be delivered to end-use residential customers on a quarterly cadence, at a minimum. The reports must be paper reports. Digital reports do not meet BPA's requirements. Note: additional requirements apply, per the [BPA Implementation Manual](#).

*\*Utilities deciding to implement Behavioral Home Energy Reports for the first time are encouraged to contact a BPA energy efficiency representative, or EER, or BPA program staff for assistance. If there is a program you believe should be added to this list, please contact your EER.*
