**Proposed Action:** Highway 20 Property Acquisition

**Project No.:** 2008-104-00; BPA-012677

**Project Manager:** Kyle Goeke Dee – EWM-4

**Location:** Okanogan, Washington

**Categorical Exclusion Applied (from Subpart D, 10 C.F.R. Part 1021):** B1.25 Real property transfers for cultural resources protection, habitat preservation, and wildlife management

**Description of the Proposed Action**

BPA is proposing to fund the Confederated Tribes of Colville Reservation (CTCR) to purchase the Highway 20 property. BPA would hold a conservation easement to permanently protect, mitigate, and enhance fish and wildlife habitat to include ESA-listed spring Chinook salmon, summer steelhead, bull trout, coho salmon, and Pacific lamprey.

Funding the proposed acquisition fulfills ongoing commitments under the 2020 National Marine Fisheries Service Columbia River System Biological Opinion (2020 NMFS CRS BiOp) and the 2020 U.S. Fish and Wildlife Service Columbia River System BiOp (2020 FWS CRS BiOp), and upholds commitments to the CTCR under the 2020 Columbia River Fish Accord Extension agreement, while also supporting ongoing efforts to mitigate for effects of the FCRPS on fish and wildlife in the mainstem Columbia River and its tributaries pursuant to the Pacific Northwest Electric Power Planning and Conservation Act of 1980 (Northwest Power Act) (16 U.S.C. 839 et seq.).

The property consists of high priority spawning, side channel, and riparian habitat. The CTCR would develop a land management plan to guide the protection and enhancement of habitat and other resources on the property. The land management plan would be drafted within 18 months of closing. The management plan would be reviewed by BPA for consistency with the conservation easement and the purpose of the acquisition. If BPA proposes to fund any additional activities on the property, further environmental review may be conducted.

**Findings:** In accordance with Section 1021.410(b) of the Department of Energy’s (DOE) National Environmental Policy Act (NEPA) Regulations (57 FR 15144, Apr. 24, 1992, as amended at 61 FR 36221-36243, Jul. 9, 1996; 61 FR 64608, Dec. 6, 1996, 76 FR 63764, Nov. 14, 2011), BPA has determined that the proposed action:

1) fits within a class of actions listed in Appendix B of 10 CFR 1021, Subpart D (see attached Environmental Checklist);
2) does not present any extraordinary circumstances that may affect the significance of the environmental effects of the proposal; and
3) has not been segmented to meet the definition of a categorical exclusion.
Based on these determinations, BPA finds that the proposed action is categorically excluded from further NEPA review.

Attachment(s): Environmental Checklist
Categorical Exclusion Environmental Checklist

This checklist documents environmental considerations for the proposed project and explains why the project would not have the potential to cause significant impacts on environmentally sensitive resources and would meet other integral elements of the applied categorical exclusion.

**Proposed Action:** Highway 20 Property Acquisition

**Project Site Description**

The property is located on the north side of the Methow River just south of Twisp, in Okanogan County, WA. The southern boundary of the property is on an outside bend of the Methow River. The Highway 20 property is a 5-acre parcel consisting of 1.1 acres of irrigated upland pasture, 4.09 acres of wooded riparian, 0.4 acres of shrub steppe, and approximately 0.3 miles of high priority river front. Historically, the property was used for agriculture, currently much of the land has been left to naturally regenerate.

**Evaluation of Potential Impacts to Environmental Resources**

1. **Historic and Cultural Resources**
   
   Potential for Significance: No
   
   **Explanation:** BPA determined the proposed land acquisition would have no potential to cause effects to historical properties on February 2, 2021. There would be no effect due to the land acquisition which includes transfer of title. To the extent that future activities on the property may have an effect, it is expected that the CTCR would comply with all applicable laws and regulations. This reach has been identified as a high priority area for both protection and restoration efforts.

2. **Geology and Soils**
   
   Potential for Significance: No
   
   **Explanation:** See explanation for #1 above.

3. **Plants (including Federal/state special-status species and habitats)**
   
   Potential for Significance: No
   
   **Explanation:** See explanation for #1 above.

4. **Wildlife (including Federal/state special-status species and habitats)**
   
   Potential for Significance: No
   
   **Explanation:** See explanation for #1 above.

5. **Water Bodies, Floodplains, and Fish (including Federal/state special-status species, ESUs, and habitats)**
   
   Potential for Significance: No
   
   **Explanation:** See explanation for #1 above.
6. **Wetlands**

   Potential for Significance: No

   **Explanation:** See explanation for #1 above.

7. **Groundwater and Aquifers**

   Potential for Significance: No

   **Explanation:** See explanation for #1 above.

8. **Land Use and Specially-Designated Areas**

   Potential for Significance: No

   **Explanation:** See explanation for #1 above.

9. **Visual Quality**

   Potential for Significance: No

   **Explanation:** See explanation for #1 above.

10. **Air Quality**

    Potential for Significance: No

    **Explanation:** See explanation for #1 above.

11. **Noise**

    Potential for Significance: No

    **Explanation:** See explanation for #1 above.

12. **Human Health and Safety**

    Potential for Significance: No

    **Explanation:** See explanation for #1 above.

**Evaluation of Other Integral Elements**

The proposed project would also meet conditions that are integral elements of the categorical exclusion. The project would not:

- Threaten a violation of applicable statutory, regulatory, or permit requirements for environment, safety, and health, or similar requirements of DOE or Executive Orders.
  
  **Explanation:** N/A

- Require siting and construction or major expansion of waste storage, disposal, recovery, or treatment facilities (including incinerators) that are not otherwise categorically excluded.
  
  **Explanation:** N/A
Disturb hazardous substances, pollutants, contaminants, or CERCLA excluded petroleum and natural gas products that preexist in the environment such that there would be uncontrolled or unpermitted releases.

Explanation: N/A

Involve genetically engineered organisms, synthetic biology, governmentally designated noxious weeds, or invasive species, unless the proposed activity would be contained or confined in a manner designed and operated to prevent unauthorized release into the environment and conducted in accordance with applicable requirements, such as those of the Department of Agriculture, the Environmental Protection Agency, and the National Institutes of Health.

Explanation: N/A

**Landowner Notification, Involvement, or Coordination**

**Description:** Notification letters would be sent to adjacent landowners and other interested parties at a minimum of 15 days before the closing date of the sale. Notice would also be posted in local newspapers and information posted on BPA’s public website prior to closing.

Based on the foregoing, this proposed project does not have the potential to cause significant impacts to any environmentally sensitive resource.
