Subject: Fiscal Year 2026 Net Requirements Determination and Response to Comments

To: Bonneville customers, stakeholders, and interested parties

Bonneville published the FY2026 Net Requirements public notice and determinations of customers' Total Retail Load and Dedicated Resource data on August 1, 2025. The comment period closed on August 16, 2025. Bonneville received one comment during the comment period:

Northwest Requirements Utilities commented that some forecasts were significantly higher than historical loads, and recommended that BPA conduct a thorough review of the industrial loads included in the forecasts. Bonneville and Cowlitz PUD agreed on a revised forecast.

Bonneville made a revision to Clatskanie PUD's historical load data to remove marketing loads.

Revised total retail load energy and peak forecasts are published in the FY2026 Net Requirements Transparency section available at [Regional Dialogue - Bonneville Power Administration \(bpa.gov\)](https://www.bpa.gov/regional-dialogue).
