

BPA Sample Study of WECC Real Power Loss Factor Publication

August 14, 2018

The following sample study was conducted by BPA in 2018 in attempts to identify if there was an industry standard / common practice amongst TPs located in WECC. Results were derived from public information provided within the TP's OATT, published Business Practices, or Price Indexes. Upon further review the results of the sample study have been corrected. Changes are highlighted.
