## Bonneville Power Administration

---

**Requested Action:** Information Only

---

### Subject Description:

At the November 4 meeting to discuss the proposed settlement for Transmission Losses, customers asked if BPA could provide additional information on the timeline for implementing Concurrent Losses. BPA has now posted a draft project timeline for Concurrent Losses to the BP-22, TC-22 & EIM [Meetings page](#).

As a reminder, in order to have time to determine how to proceed with the initial proposals for BP-22 and TC-22, BPA is requesting that customers inform us of their position on the proposed settlement **no later than 12 p.m. (PST) Friday, November 13**. Specifically, BPA requests that customers indicate whether they will support, oppose, or not contest the proposed settlement by submitting their response with the subject: "Transmission Loss Settlement Response" to [techforum@bpa.gov](mailto:techforum@bpa.gov) and copy to their Transmission Account Executive.
