

# TSEP Cluster Study Process Update

- On Sept 20, BPA outlined for customers the current challenges to the TSEP cluster study process ([see link](#)).
- Customers will be seeing recommended changes through proposed edits to the Requesting Transmission Service and TSEP business practices.
  - The formal business practice process is expected to launch in early 2023.
  - BPA's goal is to have any changes in effect prior to the next cluster study deadline.
  - The proposed changes will include special provisions for currently queued TSRs and clarifications to the annual NT Load and Resource forecast Collection process (LARC).
