

# BPA Commercial Sector Outreach

1. Energy Efficiency (EE) project planning and marketing support
2. Site assessments/energy audits to evaluate customer opportunities for energy efficiency improvements (for both deemed and custom measures)
3. Technical QC/QA review of projects – scope, methods, results, recommendations
4. Preparation of Custom Project Proposals for submission to EEdocs
5. Planning and review of Measurement and Verification (M+V) strategies
6. M+V analysis, report writing, and support of Custom Report (CR) submission to EEdocs
7. Available most any time/any place to participate in utility EE project development, review, engineering, and documentation
