

Please join the Washington State University Energy Program for an online webinar on the **Energy Efficient Block Heaters**, as part of the “Emerging Technologies Showcase” series. The live webinar airs Wednesday, October 15, 2014 at 12:00 PM Pacific Time.

Register for the webinar at <https://www3.gotomeeting.com/register/277099118>.

BPA engineers will discuss recent research results for energy efficient block heaters for stationary engine generators. A BPA Qualified product, the block heaters reduce energy use while keeping generators ready to operate immediately. A question and answer period follows the presentation.

Sponsored by the Bonneville Power Administration (BPA) with support from Western Area Power Administration (WAPA), these monthly webinars bring you the latest information about some of the promising energy efficiency technologies and practices that BPA is considering for future research opportunities or focus areas.

All webinars are recorded and available on the E3T website, www.E3TNW.org and Conduit, www.ConduitNW.org
