

Training: Fundamentals of Building Measurement & Verification (CMVP prep)

When: 2/22/2016 8:00am - 2/24/2016 5:00pm

Where:

Tacoma Public Utilities Administration Building
3628 S. 35th St.
Tacoma, WA 98409

Description:

This seminar will examine current best practices for determining and documenting savings, specifically reviewing the current edition of the International Performance Measurement & Verification Protocol (IPMVP). Attendees will learn the process of designing a proper M&V program for their projects, including cost/accuracy tradeoffs, baseline adjustments, interactive effects, types of savings, maintaining transparency, and analysis methods. Examples of specific techniques will be presented, along with common pitfalls which can result in unreliable savings reports. These techniques are central to management under the new ISO 50001 standard for Energy Management Systems. Class time will include problem solving and debate. Bring a calculator and any M&V challenges you may currently face for general discussion.

Instructor: Todd Amundson
