

Distributed Energy Resources Utility Cross-Share

Bonneville's Distributed Energy Resources (DER) team invites utility partners to share their experiences and discuss their interest in exploring DER. Some utilities in the Northwest have vast experience in this area, and there are many more who are asking themselves whether resources like demand response or battery storage may help them manage their distribution grids more efficiently and effectively.

To facilitate the discussions between these various utilities, BPA is pleased to host a utility cross-share event. This will be an informal opportunity for brief presentations and in-depth discussion between utilities. Past experience with these meetings proved them to be great environments for sharing and learning.

Please note: vendors are not invited.

Contact DER Project Manager, [Stephanie Vasquez](#), 503-230-3492, if you are interested in presenting or attending.

Logistics

- October 25, 1-5 pm
- BPA Pasco Office: 2211 North Commercial Ave.; Pasco, WA 99301

Format

- Brief presentations from utilities in the Northwest that have demand response or distributed energy resource programs.
- Open discussion between utility customers.
