

# BPA Energy Efficiency Weekly Announcements, December 26, 2013

## General

### **Post-2011 Review Scope and Process -**

BPA requested that utility customers and stakeholders use this [public comment period](#) to provide feedback on the issues within scope for the Review, express interest in participating in a workgroup or multiple workgroups, inform BPA of willingness to host regional meetings, and sign up to receive future communication regarding the Post-2011 Review. The comment period closed December 21. Customers and Stakeholders who would still like to sign up should contact their EER and specify which workgroup. Workgroup One will commence January 16. Other workgroups will commence thereafter. Stay tuned for details. For more information: <http://www.bpa.gov/Energy/N/post-2011/>

## Reminders

### **Smart Water Heat Adds Two New Electrolux Models -**

Electrolux has two new heat pump water heaters ([EE66WP30PS](#) and [EE66WP35PS](#)) that have been added as Tier 2 models on the [Qualified Products List](#), effective Nov. 15, 2013. Both models qualify for the Smart Water Heat Tier 2 rebate, which is available until March 31, 2014.

Electrolux is in the process of working with its supply chain to have product available at retail in early Q1 of 2014. [Smart Water Heat](#) will provide updates on product availability as they become available.

### **Implementation Manual (IM) has been revised –**

Several small revisions have been made to the Implementation Manual. These changes which are primarily language clarifications are listed below. You can find more detail in Updates and Revisions section of the [Implementation Manual](#).

The Engine Block Heaters measure is available for the agricultural, commercial, industrial and residential sectors. In the Whole House Air Sealing Measure, a reference to "unconditioned space" was changed to "interior space." The instructions to perform the COTR Request and Acknowledgement Procedure via [eedocs@bpa.gov](mailto:eedocs@bpa.gov) have been removed.
