

BPA Energy Efficiency Weekly Announcements, June 11, 2015

General

Regional Programs Cost Benefit Analysis -

To support our customers in their efforts to acquire energy efficiency BPA offers regional programs that provide economies of scale, ease of implementation, and customer convenience. As part of the post 2011 review process customers asked BPA to be more transparent in the cost and benefit of our regional programs. To do so we have compiled an [overview of our regional programs](#) and detailed description inclusive of any customer incentives and contract costs for [Energy Smart Industrial](#), [EnergySmart Grocer](#), and [Simple Steps Smart Savings](#).

If you have questions about this information please contact your EER.

End of Rate Period Deadlines -

As the 2014-2015 rate period comes to a close, BPA would like to ensure our customers have the information necessary to plan for their close-out processes. This document outlines the major milestones between now and the end of FY15 and provides context around those dates...[More](#)

Reminders

Simple Steps Non-participating Utility Savings Allocation Changes -

In June 2015, the Simple Steps program policy for non-participating utility savings will be updated. Non-participating savings are savings that are accrued by the program but not directly purchased by a participating utility. This change results in additional savings for Simple Steps participating utility customers at no extra cost and also changes how savings will be allocated to utilities joining the program after the initial start date...[More](#)

Business Transformation Process Results -

BPA's Energy Efficiency organization recently completed a comprehensive organizational review to examine the scope of its IT systems, specifically the Northwest Efficiency Depot (NED), and to determine how best to align the organization to address critical business needs and re-launch a system development project. The linked report provides a high level overview of the recommendations as well as an update of the timeline going forward...[More](#)

Status of Rollover, Large Project Program and Billing Credits -

With the conclusion of the IPR2 process BPA can now confirm the status of several of the programs agreed upon during the recent Post 2011 Review...[More](#)

Draft Momentum Savings Allocation Percentages for review through June 30, 2015 -

BPA has posted draft Momentum Savings allocation percentages for review. BPA developed the draft momentum savings allocation methods in close collaboration with the public utilities. We welcome all comments and feedback on this draft method received by June 30, 2015. BPA will review comments and issue a revised method by the end of July (although more time may be necessary if the comments we receive are substantial). Please find it on the BPA Momentum Savings webpage: www.bpa.gov/goto/MomentumSavings. Upon review, please send comments to your EER or to Bonnie Watson at bfwatson@bpa.gov.
