

BPA Energy Efficiency Weekly Announcements, July 23, 2015

Events

Brown Bag: Air Northwest - The HVAC Trade Ally Network -

The Commercial Team has news to share about the launch of the [HVAC TAN](#). Join us on Wednesday, July 29 where we will be discussing the role of Air Northwest as a resource for utilities, and how they will work with trade allies to implement savings in the region...[More](#)

Brown Bag: Update on the Development of the 7th Power Plan -

The Northwest Power and Conservation Council is progressing through the development of the 7th Power Plan. As we prepare for the release of the draft energy efficiency targets this fall, BPA is taking a deep dive into the conservation potential supply curves to get a detailed understanding of the region's savings potential. Please join us Tuesday, August 4th as we take a look into the results of the supply curves and provide a demonstration of a tool we have created so that you can conduct your own supply curve analysis...[More](#)

Webinar: Updated Regional DHP and HPWH websites to launch:

NEEA will be holding a regional webinar **July 30 from 9:30-11:00 am** to share updated regional websites for both DHP and HPWH programs. The new websites will have increased utility integration options, allowing customers to be redirected to your utility websites and/or feature more of your utility program offerings. Join the webinar for a demonstration of the site, and to provide feedback on how you would like your utility to be positioned on them before they go live August 19. [Webinar URL](#)

General

Unassigned Account Allocation - July 30 Deadline to Request Funds -

As previously noticed customers, BPA will make a final allocation of funds available to customers through the Unassigned Account fund before the end of Fiscal Year 2015. The total Unassigned Account distribution will be \$1,325,619. To request funds, customers will need to complete an "Unassigned Account Request Form." BPA will accept requests until close of business on July 30...[More](#)

October Implementation Manual - Public Comment Period Begins July 30 -

As part of a new Implementation Manual development process, BPA will release the draft of the October Implementation Manual on July 30 for review and comment. The comment period will close Friday, August 14. Watch for the announcement with link to the comment page in next week's announcements.

BPA is Cancelling our E Source Membership -

For the past several years BPA has maintained a membership with E Source that was available to our customers. While E Source undoubtedly provides a valuable service BPA has not seen enough customer usage to justify the cost of the membership. So in an effort to minimize the costs borne by our rate payers we have decided to cancel this membership.

If you are interested in establishing an independent membership with E Source please contact your EER to facilitate an introduction to the appropriate individuals within that organization. Our E Source membership will be active through the end of July should you need any final access to their services.

Reminders

Upcoming Ductless System Manufacturer Promotions -

Fujitsu and Mitsubishi have announced two manufacturer promotions, one beginning July 15, with product markdowns. Templates, tools and support will be provided by the Northwest Ductless Heat Pump Project and via BPA's Energy Efficiency Marketing Portal to help market these promotions to your customers...[More](#)

Changes to UES Measure List Format -

Recently BPA conducted a survey on proposed changes to the UES measure list format. We are pleased to announce that we will be eliminating 25 columns of data from the UES Measure List effective October 1, 2015. Background on this process and links to the list of

columns that have been removed and a template of the UES Measure List that will take effect on October 1 can be found [here](#).

Draft Non-Residential Lighting Models for Review -

The non-residential lighting model is now available for review and comment before we finalize our analysis. Extensive review and critical feedback improves the analysis and we deeply appreciate feedback on this work. Please send all comments and feedback to Bonnie Watson, bfwatson@bpa.gov by August 7, 2015.

Draft Momentum Savings Allocation Percentages for review EXTENDED through July 30, 2015 -

BPA has posted draft momentum savings allocation percentages for review. BPA developed the draft momentum savings allocation methods in close collaboration with the public utilities. [Draft Momentum Savings Allocation Percentages](#). We welcome all comments and feedback by July 30, 2015 (extended from June 30.)

BPA fixed an error in the description of the draft allocations spreadsheet for non-HVAC savings shares. Previously, the description said we used the total number of BPA customer utility residential customer count and this has been corrected to the total regional residential customer count (including IOUs and Public Utilities). This change does not impact the draft allocation percentages, just the description on the "READ ME" tab of the workbook.

BPA will review comments and issue a revised method by the end of August (although more time may be necessary if the comments we receive are substantial). Please send comments to your EER or to Bonnie Watson at bfwatson@bpa.gov by July 20, 2015.
