

BPA Energy Efficiency Weekly Announcements August 27, 2020

Events

Brown Bag: Welcome to Comfort Ready Home

Join BPA from noon-1 p.m. (PST), on Thursday, Sept. 3, for an overview of BPA's new Residential program, Comfort Ready Home. During this meeting, you will receive an introduction to the program and learn more about the next steps as BPA moves toward a late December launch.

Pre-registration for this meeting is required...[More](#)

Performance Tested Comfort Systems flow-plate webinar

The Performance Tested Comfort Systems program is delivering an online flow-plate webinar to demonstrate the use of a flow plate.

Flow-Plate Webinar:

8 a.m. to 9 a.m. (PST), Tuesday, Sept. 8

A question and answer session will follow immediately after the presentation. If any of your contractors or other HVAC professionals would like to learn more about the webinar, please contact ResHVAC@bpa.gov or call 1-800-941-3867.

Program Updates

Summer 2020 Performance Tested Comfort Systems duct sealing training offer

The Performance Tested Comfort Systems program, or PTCS, is delivering an online duct sealing certification training this summer. If any of your contractors or other HVAC professionals would like

to be certified to complete duct sealing installations, please contact ResHVAC@bpa.gov or call 1-800-941-3867 to register...[More](#)

New Opportunities in the Commercial Sector Guide now available

New Opportunities in the Commercial Sector Guide now available The BPA Energy Efficiency New Opportunities in the Commercial Sector Guide is now available on bpa.gov. The guide was developed to help inform utility customers to focus on priority commercial energy-efficiency measures that help keep power rates low. Featured measures include HVAC, non-residential lighting, and commercial Unit Energy Savings offers. Marketing, user groups and customer service resources are also included.

View and download the Commercial New Opportunities Guide [here](#).

Reminders

Evaluation Project Updates

Regularly, the Evaluation team provides stakeholders with status updates on our projects. The latest update includes insights on our recent and current projects, the 2020-2021 Impact Evaluation Plan and analysis on ductless heat pump savings. [Follow this link to read more.](#)

Evaluation offers valuable information that allows energy-efficiency programs to achieve continuous improvement and efficient, cost-effective implementation. To learn more about evaluation, please visit www.bpa.gov/goto/evaluation or email questions to evaluation@bpa.gov.

Summer 2020 PTCS heat pump trainings

The Performance Tested Comfort System program, or PTCS, is delivering online heat pump certification trainings this summer. If any of your contractors or other HVAC professionals would like to be certified to complete PTCS heat pump installations, please contact ResHVAC@bpa.gov or call 1-800-941-3867 to register...[More](#)

Nominations now open for the 2020 Leadership in Energy Efficiency Awards

The Northwest Energy Efficiency Alliance is currently accepting nominations for the annual Leadership in Energy Efficiency Awards within the categories of INNOVATION, COLLABORATION and LIFETIME ACHIEVEMENT. This year, awards will be held as a virtual ceremony that recognizes individuals, teams and organizations for their exemplary dedication, enthusiasm and leadership toward furthering energy efficiency in the region.

Do you know any teams, programs or individuals that demonstrate outstanding leadership in the Northwest? Nominate them for the Leadership in Energy Efficiency Awards! It's so easy to nominate someone. Go to neea.org, pick the category and add contact information and a 250-750 word description of why your nominee should win by Sept. 11.
