

## Performance Tested Comfort Systems® Trainers

The following trainers have demonstrated the certifications and experience required to train and certify installation technicians for the BPA PTCS program. This list is updated regularly and is compiled without order (e.g. chronological or alphabetical). PTCS certification training requires a minimum level of knowledge. Technicians who lack duct sealing or heat pump experience should consider training prior to taking attempting PTCS certification. BPA provides more information on preparing for PTCS certification online at [www.bpa.gov/reshvac](http://www.bpa.gov/reshvac).
